

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

(No meeting of the Biochemical Society on Wednesday afternoon.)

8:30 P.M.—Smoker, Biological Chemists with the Anatomists and Physiologists.

*Thursday, January 2*

9:30 A.M.—Meeting of the American Society of Biological Chemists, with an executive session before adjournment.

2:30 P.M.—Joint session of the Society of American Bacteriologists and Section K of the American Association for the Advancement of Science.

Details of local arrangements during convocation week, including reference to railroad rates, hotels, special announcements by the Chicago committee for the guidance of visitors, etc., have been published in a pamphlet issued from the office of the Permanent Secretary of the American Association for the Advancement of Science, copies of which may be obtained, at request, from Dr. L. O. Howard, Smithsonian Institution, Washington, D. C.

Copies of the biochemical programs will be forwarded to the members of the Biochemical Society about December 23, and may be obtained after that date from

WILLIAM J. GIES,  
*Secretary*

437 WEST 59TH STREET,  
NEW YORK CITY,  
December 9, 1907

*ORGANIZATION OF AN AMERICAN SOCIETY  
OF AGRONOMY*

It is requested by the undersigned that all persons interested in agronomy join with them in a meeting during the coming holiday season at Chicago for the purpose of organizing an American Society of Agronomy. The meeting for organization will be held Tuesday morning, December 31, in the buildings of the Chicago University, the particular place of meeting to be announced later.

Although this meeting is called for the same period during which the sessions of the American Association for the Advancement of Science will be held in order to secure better attendance, it will be determined at such time whether the organization shall be a section of this association, an affiliated society, or take some other form. A suggestive constitution and by-laws will be submitted in order that business may be hastened and as much time as possible be given to the reading of papers even at this first meeting. Eight to ten papers have already been offered. Titles and abstracts or the papers themselves should be sent at the earliest date possible either to Alvin Keyser, University of Nebraska, Lincoln, Nebr., or to M. A. Carleton, U. S. Department of Agriculture, Washington, D. C.
